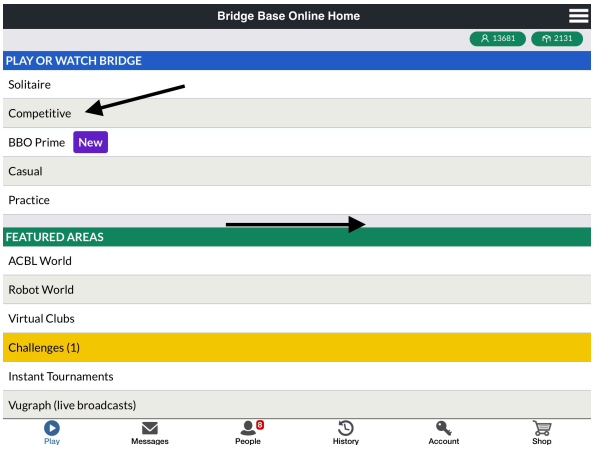
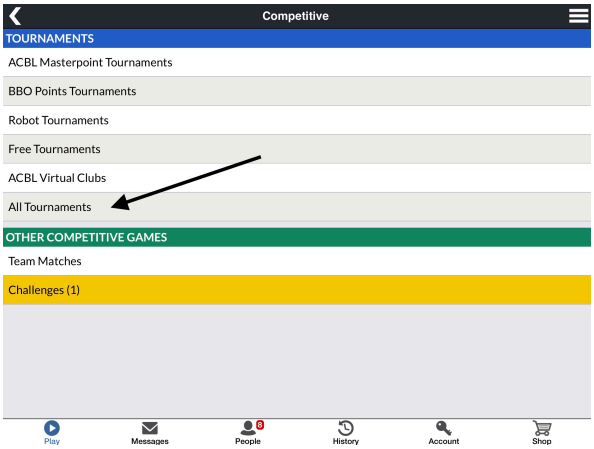
1 Arrange with your partner a time between 1 hour and 15 minutes before the start time when you will both log in. Only one of you should invite the other.
From the Home Screen Click on Competitive

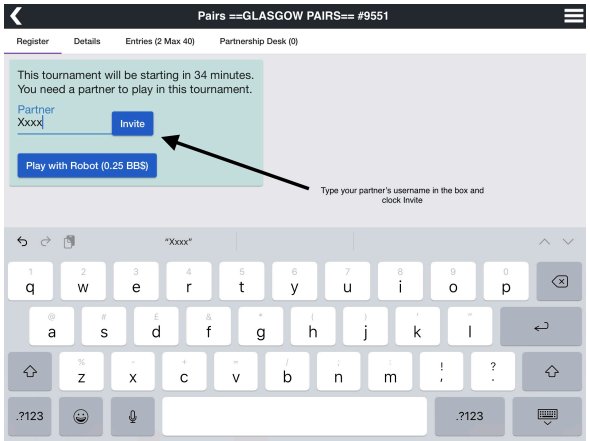


2. On the next screen click on
All Tournaments



3. Then type in GBC in search box and click on the correct tournament (NOT GBC Greyscales)

4. Type your partner's user name in the invite box and click invite. Your partner should accept the invite which pops up on their screen.
You can now have lunch/ coffee, whatever, until its time for the match to start!



5. Ensure that you are both logged back in at least 5 minutes before the tournament starts, and in the competitive area. Just wait and you will be "swept" into the tournament.

Have a good game!
