

Results of Snooker Questionnaire Winter 2025

Thank you to those snooker players who returned a completed questionnaire. Around 50% of you joined in. The responses on the various questions can be summarised as follows:

Snooker Lounge There was no interest in this. Only one member expressed any interest.

Tea & Coffee Downstairs There was some interest in this although a couple felt that it was just as easy to go upstairs to make a drink. We are to provide a kettle, coffee and milk.

Paper based booking system Again the current system seems to work for nearly everyone.

Online Booking System? A couple of members would prefer this to be introduced but the vast majority were reluctant to change.

Snooker Ladder or games against other clubs? There was some limited enthusiasm for the introduction of a snooker ladder so that club members could play against other members.

Other comments There was a request for new snooker balls, baize, and cushions on the table. Could the old cues be offered for sale? Could the lighting meter be converted to accept card payments? Could the heating be turned up in the autumn/winter months?

The allocation of costs between bridge and snooker was also raised by a couple of members. Please note that this was not intended to be interpreted as a future plan but to show that both sides of the Club rely on each other going forward.
