## Rank Singleton Frequencies

People often say that there are a lot of singleton Kings with computer dealt hands.
Here we see that there are usually 2 to 3 singleton Kings per set (or any other singletons for that matter),
although on one occasion there were 9 of them - people must remember this one!
Do they remember that evening when we had 10 singleton 4's? I suspect not!!

| No per Set | $\mathbf{A}$ | $\mathbf{K}$ | $\mathbf{Q}$ | $\mathbf{J}$ | $\mathbf{1 0}$ | $\mathbf{9}$ | $\mathbf{8}$ | $\mathbf{7}$ | $\mathbf{6}$ | $\mathbf{5}$ | $\mathbf{4}$ | $\mathbf{3}$ | $\mathbf{2}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 0 | 2 | 8 | 6 | 4 | 4 | 4 | 4 | 7 | 0 | 3 | 3 | 4 | 6 |
| 1 | 17 | 22 | 13 | 26 | 16 | 24 | 21 | 17 | 21 | 17 | 23 | 21 | 17 |
| 2 | 33 | 25 | 30 | 34 | 37 | 29 | 35 | 32 | 32 | 25 | 31 | 26 | 29 |
| 3 | 34 | 35 | 36 | 38 | 33 | 31 | 36 | 36 | 28 | 30 | 31 | 36 | 34 |
| 4 | 24 | 19 | 27 | 18 | 29 | 24 | 15 | 22 | 22 | 34 | 31 | 25 | 25 |
| 5 | 16 | 16 | 13 | 8 | 9 | 15 | 13 | 16 | 22 | 17 | 8 | 14 | 13 |
