

HOW TO CHECK YOUR SCORES ON THE BRIDGEMATES

At the end of the round look for the “Rank” designation in the Bridgemate’s LCD screen.

Press the button UNDER “Rank”. It will display the provisional ranking for both N/S and E/W. Remember that not all boards will be recorded at this point, so there may be a change in the final ranking.

To check your scores:

Press the button under Game Summary (on the right of the LCD screen).

When viewing game results at your last table North/South scores will show first.

Use the up and down button to scroll through the scores. Check the scores quickly without discussion.

When finished hand the Bridgemate to the E/W team.

To check East/West scores press the E/W button. To return to N/S results press the N/S button.

After checking your scores please return the boards, and mat to the Directors’ table. You may leave the Bridgemate where it is.

If any corrections are required please report them to the director.

(To return to the Rank and Results screens after the Bridgemate has ‘closed’ press OK and enter your Team Number then N/S or E/W.)
