4. Blue Pointed Multiple Teams..... page 25-27

5. Blue Pointed Swiss Pairs..... page 28-31

6. Mens and Ladies Pairs..... page 32

These screen shots are done using version 1.1.4, the current version.

Updated versions may have slight changes, but the principle is the same

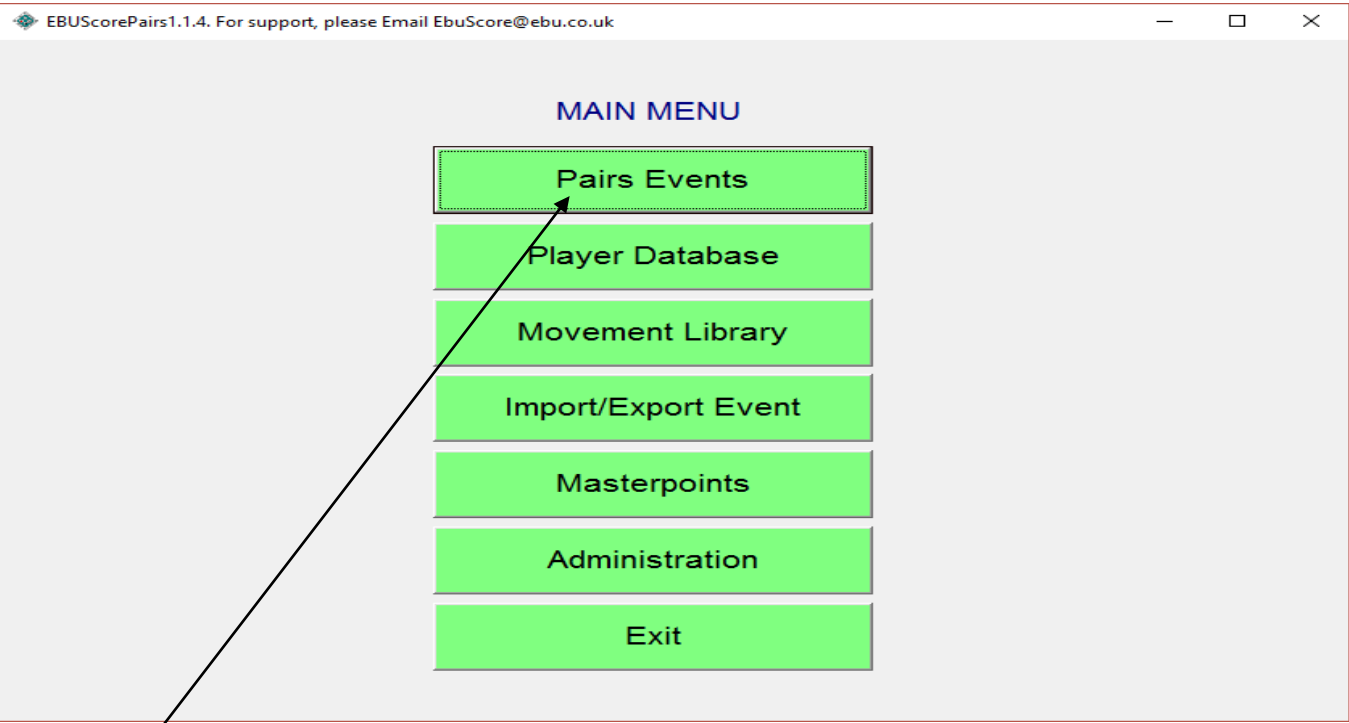

Stephen Brown, April 2017

1. A two session county Pairs final

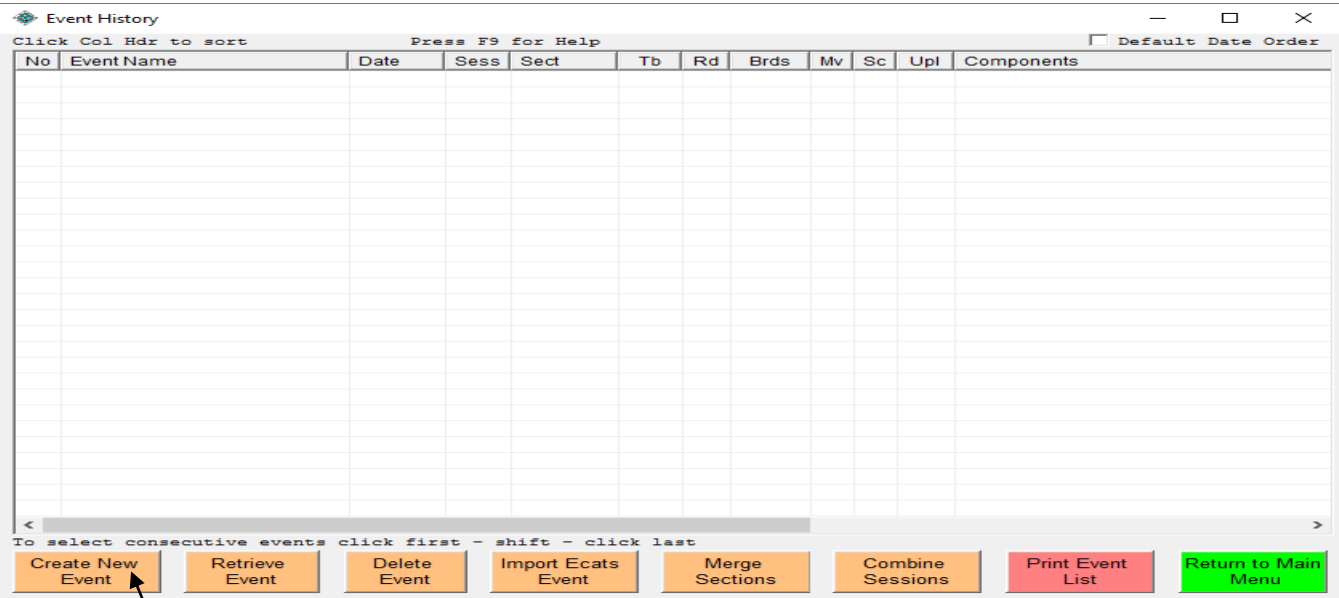

If you are unsure of the number of pairs, you can simply set up session 1, just like you do for a one session event, and then do all the setting up for session 2 and the links from one session to another later.

You can run the Bridgmates for session 1 from the session 1 event (or from the Multi event).

Open EBUScore Pairs scoring software.

Choose pairs events

Create a new event for the first of the two sessions

Enter the following details:

The screenshot shows the OBA Scoring application window titled "Event 1 Oxfordshire County Pairs 02/04/2017 Section A Session 1 Pairs NeubergMP". The interface includes a top bar with "Table Top Unit" set to "Bridgemate" and "Database" set to "Inactive". Below this are tabs for "Results", "Admin", "Reports", and "Player Numbers".

In the "Results" tab, there is a dropdown menu set to "All Rounds" and a label "0 Entries". To the right are radio button options for "Missing Scores" (selected) and "Round Data". Below these is a large green grid table with columns labeled "Table", "Rd", "NS", "EW", "Bd", and "Triple". At the bottom left, a text area displays two entries:

```
A    Bd 16 Both NS/EW play in Spades
A    Bd 24 NS16 - EW1      5 undertricks
```

The "Reports" section on the right contains several controls:

- Display**: Radio buttons for "Notepad", "Web Table", and "Scroll" (selected).
- Cycle**: A checkbox labeled "Ranks" which is checked.
- A checkbox labeled "Ranks - Exclude Adjustments" which is unchecked.
- Two red buttons: "Ranks" and "Travellers".
- A button labeled "Change Location of Scroll File".
- A text field containing the path "G:\My Documents\Bridge\OBA Scoring training\Pairs".
- A red button at the bottom labeled "Print Potential Anomalies".

Three black arrows originate from the top center of the image and point to specific elements: one points to the "Rounds" dropdown, another points to the "Ranks" checkbox, and a third points to the "Ranks" button.

All the remaining scoring is done in the Multi-Event.

Scores can be changed, and all the printing can be done from here.

The usual Scrolling ranking list can be shown, and this adds on scores from session 1.

2. Two section events (& two session events)

If two sections are played, they you can call them sections A and B or, better, RED or GREEN sections as appropriate.

The session 1 sections A (Red) and B (Green) are created first, events 7,8 shown above

Highlight these two (use CTRL to highlight section) and choose Merge Sections this creates, event 9 – session 1 Multi

Then section 2 sections A (Red) and B (Green) are created, events 10,11 shown above

Then Highlight these two and choose Merge Sections this creates, event 12 – session 2 Multi

Then highlight 1 Multi and 2 Multi (as shown above – also chosen by CTRL to highlight the second) and choose Combine Session to create Multi Section, Multi Section

During session 1, you can run the Bridgemates using event 9 shown above.

This gives time to set up session 2 and provide all the multi session links.

During Session 2, run the Bridgemates using Multi-Multi i.e. event 13 shown above and choose session 2.

[If all is set up in advance, you can use Multi Multi for session 1 – but then whilst this is running you cannot so easily make any changes to what is set up – so I always use event 9 shown above i.e. session 1 Multi]

3. Two session mixed pairs (i.e. non green pointed event)

All is the same as the County Pairs, but the event description screen should be: i.e. County Event
