

KCBA archives update report

Report of changes to archive since the December 2020 committee meeting.

In the KCBA people section articles for David Beal and David McVey have been added and the article for Bill and Gay Bright updated. There are now 43 articles in this section.

The trophy winners section has had all the 2021 winners to date added plus a few extra cups have been updated to reflect no competition in 2020 or 2021.

The KCBA officer's section has been updated in particular for president, chairman and vice president/chairman although with there are still some gaps for all positions. It is hoped more details will be obtained from old committee minutes in due course.

The Tollemache section has had 2021 final results added. The National Successes section had had the 2020 Hubert Phillips result added plus a few other older ones including extra results from the ranked masters pairs.

The KCBA history document has been updated with some recent details, it is now quite a lengthy document of 14 pages. The new version should be added to the website in the next few days.

At present there are no further sections being planned, although it is hoped in the near future some details from old committee minutes might be added.

The number of hits for archive pages on the website so far this year has averaged circa 30 per day.
