

Larsky Report

In previous years around this time I have sent an email to club secretaries asking for dates for their Larsky heats, one for each day of the week on which they play. I suggest possible dates which will be the default dates if they do not reply. I also usually set out the details of the semi-finals.

This year we really do not know what events will be taking place in November, December and January either online or face-to-face.

In reality the club heats are an exercise in getting as many people as possible qualified for the semi-finals. I therefore propose that this year all club events in the weeks commencing:

1st November

6th December

3rd January

will be Larsky heats. This will mean more heats and I hope more qualifiers.

I also propose that we decide in November whether the semi-finals will be online or face-to-face or both. We may have to decide on the final at that time as well.
