

Kent Contract Bridge Association

Treasurer's Report on the accounts for the year ended 31st March 2023

There was a decrease in the Association's income for the year compared to that for the previous year due to a small decrease in the County's Pay-to-Play income from clubs, the increased costs of holding the County Competitions following the reintroduction of Face-to-Face events, and the decrease in popularity of the Saturday virtual sessions.

The expenditure is higher than last year, mainly due to the reintroduction of face-to-face competitions, as the County was once more able to send a team to compete for the Tollemache Cup and a donation was made to the English Bridge Union appeal on behalf of a Junior international team.

Despite less income and higher expenses, the Kent Contract Bridge Association had a net surplus for the year.
