

Summer has arrived! I know that we all hope that the weather will be kind to us. We continue to make good strides here at the Bridge Club and details follow.

The City of Palm Coast intends to submit a "Usage Agreement" to our club by July 19, 2013. The board and the building committee will be reviewing the proposed agreement to ensure that we have full agreement with the City, before design and construction begins on the new building that will be built for Bridge Club use, next to the Palm Coast Community Center.

Over \$1000.00 was contributed to our building fund in memory of Raffie Jenco.

Our building fund value on July 9 was:

\$91,503.00 !!!

Please contact Joel Atwood or Betsy Hill, if you would like to make a pledge to our building fund.

We intend to plan a special Members meeting in early August to discuss the current state of building pledges and the proposed usage agreement with the City of Palm Coast, when that document is received from the City.

JoAnn Vergnolle is arranging FIRST AID training for club Members and Directors. JoAnn worked with the St Augustine Bridge club to obtain their AED unit and she is now helping Palm Coast to learn how to use the AED unit in the church lobby, and help us build a functional First Aid kit, too. We hope to have a class in August and then, possibly repeat in the fall and then again in the winter. This training is available to all members for \$30. The training is provided by County Emergency Medical Services.

ACBL Changes in Rank are available on the [UNIT 128 Website](#). Congratulations to Russ Leavitt - Junior Master, Priscilla Cahill - Regional Master and John Carney Jr. - Sectional Master in June.

Club members continue to extend their best wishes to Dudley Thomas during his recuperation.

We are planning a SPECIAL GOLFERS GUEST DAY on July 26. Flyers have been distributed to the golf course locker rooms around Palm Coast.

Good luck with all your bridge play this month and thanks for your kind attention!

Gail Danhoff

President, Board of Directors, Palm Coast Duplicate Bridge Club
