This seminar will give you all the answers you need about Nationals. You will have more fun at Nationals if you know what to expect and how to do things

The Convention Card The Laws of Bridge say everybody has to have one. Lets take this opportunity to fill one in with our favourite partner. I will buy everyone who comes to Nationals a card holder to keep it in. Filling in the card will improve your game because you will have discussed things and know how your partner wants to play them.

How to feel comfortable at the table. When do you alert? What do you do when you make a mistake in the bidding? The Director is your friend , use him.

The Schedule. What games will suit you and your partner? How do the strats. work? You might play well above your level so that you play against the top stars. Should you play in the morning or the afternoon? What games give what points.

More to do and see. The Bulletin is very informative and will be available daily. There will be lectures by well known bridge teachers. Barbara Seagram and Audrey Grant often talk at Nationals. There will be a good book store. There will be stands with clothes, often with some bridge theme. There will be hospitality – food and entertainment after the games.
