

CONCENTRATION!

Bridge is like a horse race! The most important parts are the TAKE-OFF from the gate (Round 1) and the FINISH LINE (last round). It has been said that most errors occur at the alpha and omega. STRIVE for concentration. Get in Bridge mode upon arrival. Save grazing for later. Review your convention card. Take time for the opening lead, declarer play and third-hand signal or play. In the final round you will be tired. Slow down and FOCUS. May you win the race!
