

## RENE PRICE..... Obituary

1931 – 2006

Rene started playing bridge while serving in the RAF doing his national service. He was a member of Surrey for over 50 years, served on the Surrey committee for some time, and also represented the county. He was a truly ethical player with an analytical bridge brain and a vast knowledge of all systems. He particularly admired the Italian Blue Club.

His pet hate was the master points system, declaring that in some instances it never truly represented the calibre of the player. He was probably one of the few people who actually tore up green points.

He won many competitions at club, county and national level, including the Surrey County Pairs in 2005 with Angela Samuelson who had partnered him for 20 years.

He leaves behind four children and eight grandchildren.
