Dear Operation School Bell/ Assistance League of Tucson,

I am writing this letter on behalf of Miller Elementary School to say thank you for the support of our students. For the last few years our students have participated in Operation School Bell and the joy it brings to them and their families is nothing short of amazing. To see the smiles and confidence boost when they have their new clothes (especially the shoes) and new backpacks makes all the difference in the world.

We have seen many students/ families that are in need and it is so fulfilling when we get to send siblings together instead of just having to chose one child because other organizations only allow us to bring a handful of students. We have had parents whose eyes fill with tears when they learn that ALL of their children will be going on the fieldtrip. Being able to name over 100 families a year helps our population a great deal and lets it be one less thing some of our families have to worry about.

Miller is such a grateful participant of OSB and we look forward to continuing this partnership in the years to come.

Thank you,

Maricella Carranza
Miller Elementary Principal
