

Rules for Leagues and Knock Out 2017/18 Season (Salient points)

(Revised September 2017)

The Leagues shall be known as League 1, League 2, League 3.

Teams will only be allowed to enlist a substitute when the Team has a full complement of six team-members. Substitutes are not allowed to play in the same league as they play as a regular team-member; they may not play in a lower league than the one they normally play in and would need to satisfy the TSC that they do not materially strengthen the team.

Teams in League 3 will be allowed up to eight registered players on the understanding that if they win and accept promotion, that number will be reduced to six.

Following the ballot of teams' preferences for league structure, should League 1 continue to have 10 teams for the 2018-19 season then a two up and two down promotion/relegation protocol will operate at the end of the current season.
