

## **SIM Pairs Notes**

The CiN Sim. Pairs and the Kidney Research Sim Pairs are run by ECats. The results need to be uploaded to both the EBU and Ecats.

On the event detail page the EBU UMS rate should be 06, and you also need to enter the Ecats session no. (Tuesday 14-Nov-2017 it is **5223**, Thursday 16-Nov it is **7521**).

Upload to the EBU as usual. On the same page click the Create Ecats file button, This makes 4 files c.txt, p.txt, e.txt, & r.txt. Then send an email to **results@simpairs.com** with the 4 files attached.

## **Handicapping Notes**

Go to the Player Database page and select the Player Management Tab. Check the Strat. and Handicap by Grade boxes then click Set all Players EBU Details (this will take a minute or so).

Create and run the event as per usual then in the Reports page tick Ranks + Handicap before printing the Ranking report

In the Internet Functions Page tick the Include Handicaps box before Creating the Bridgwebs File ( The EBU upload is unaffected)
