The number of teams has reduced this year and there are now three equally sized divisions, each with six teams. In addition a number of teams have changed their line-ups. To accommodate all the changes the following actions were taken. Two teams were relegated from Division 1 (as was normally the case) but only one team has been promoted. One team was relegated from Division 2 whilst another disbanded. One team was promoted from Division 3. Because of personnel changes, there are effectively three new teams this year and they have been allocated to Division 2 and 3 accordingly.
