

It has been an interesting 21 months. I don't usually watch my points very much. After I achieved several awards in 2019, I thought I'd like to make it to 100 mp in 2020. I actually think being sequestered so much due to Covid-19 enabled me to beat my goal by three months.

I am so glad to see BBO and ACBL join together for opportunities for all levels of tournaments. We had so many opportunities to travel to different locales for tournaments and then suddenly there was nothing. It looks like maybe there will be something every month, which would be nice.

My club is great. There are free lessons twice a week and a mentor/mentee game weekly. By having the lessons on zoom, we can at least catch a glimpse of friends we miss.
