

Since March, I have played regular on-line games both competitive and casual and face-to-face with the Slidell Duplicate Club when I was in town. I was very fortunate to find a competitive games partner who was happy to play with me as I continued to study modern bridge and gained experience by playing. I found it very helpful to play on-line because I could study the hands after playing them to look for opportunities for improvement, I always find something. I hope the on-line option remains strong to give people a chance to play and learn this way if they wish to. I look forward to continuing my improvement efforts and enjoying the challenges of playing bridge.
