

I moved to MS 6 years ago from TN to be close to my Daughter and her family. My husband was suffering from Alzheimers and the family wanted to help care for him. I saw an ad in the local paper advertising bridge lessons. I loved to learn new things so I attended the lessons at the local bridge club and the rest is history. My husband spent 3 years in Long Term Care before he passed away last March. Bridge helped me cope with being alone, especially during Covid. My friends and I spent many hours on the computer playing in Tournaments and nice clubs. I have returned to my local Bridge Club but will make playing on line a special part of my bridge life.
