

It's been a long, fun road. My parents both played duplicate and I started out as a caddy way back when. We have 3 generations of caddies in my family! Then I advanced to typist at tournaments. Back then the scores were calculated by hand and posted on a sheet with the names typed in. Later on I started playing with my parents, who were excellent teachers. They wouldn't teach me any conventions until I had the basics down. They would be so proud of me!
