

I am the lady in orange celebrating with my Swiss Team members at the New Orleans national bridge tournament in 2023. Susan and Rodney Barnette and my husband Ron

I learned to play bridge in college and played until our first child was born. I didn't go back to serious bridge until many years later.

Now that I'm retired and live in Hot Springs Village, I can play just about every day!

Bridge has opened the door to many lasting friendships and many fond memories of all the many places we've gone just to play bridge.
