

I learned this game as a child and became an ACBL member in 1979. I paused in my teenage years and started playing again in December of 2019 when my son, Griffin took an interest and was playing for the Georgia Tech team. I renewed my membership in January of 2020. I had 11 1/2 points from the 80's,

I am tenacious when I want to learn how to do something ;so I have been as persistent as I can in my pursuit of the game. I still work full time and take 24 hour call as an OBGYN. so it is hard to play in a lot of club games. But I love this game, and my family as a whole is addicted, so that lends itself to playing online in Virtual clubs. We also love to travel and have been to as many tournaments as possible over the past three years.

I achieved life master rank at the NABC's this March in NOLA. We went to Chicago in July and had a blast as well. After doing well in silver linings week online recently , I was able to bump up to Bronze life master rank ,

I attribute my success to my tenacity and my partners. Thank you to : Robert Kirkpatrick, Janice Kirkpatrick, Russ Kirkpatrick, Sherry Kinkopf, Griffin Stewart, Tommie Wright, Vicky Massey, Sandra Baggett , Jeremy Stanbaugh and Mickey Goegel .

My name is Deanna Stewart and I love the challenges this game avails.
