

BHBC minutes 7-16-17

Present: Mike Abeles, Marcia Fisher, Nancy Heck, Alan Schneider, Karen Schwartz and Richard Stevenson

Manager's report: Generally the games are going well. The Thursday 299er game is doing well. Victor will be directing the Tuesday night game. In August he will be giving a lesson prior to the Tuesday night game.

We want a friendly environment at the club and will work to provide a pleasant atmosphere.

Treasurer's report: There is a small increase in table count each of the last few years. Regarding Profit and Loss, there has been a profit this year over last year.

Education: There are 3 Learn Bridge in a Day groups. Several people of the original group have been participating in supervised play. Nancy's goal is to incorporate them into the Monday and Thursday day games. She would also like to have a mentor program Tuesday evenings whereby a seasoned player will play with a beginner. Nancy would also like to have kibbutz program for advanced beginners. It was also suggested to have a summer bridge camp for children.

Sunshine: Rick Turner was in the hospital with a serious condition and is now home.

Conduct and Ethics: Bob Shore is now in charge of Conduct and Ethics and would like all player memos to be given to him or emailed to him at : bob78164@yahoo.com

New business: we now have a microwave to heat coffee if it isn't hot enough. Some people want cheese and meats at the evening games and some want packaged foods. It is also suggested to put perishable food away when the game starts and leave out only packaged food.

Alan Schneider attended a city of Beverly Hills meeting to discuss renovating the club. It is in the works but will be a slow process.

Our next meeting will be Sunday August 13 at 11a.m.

We wish you a pleasant bridge month.
