

BABC Online

Guide - Using the partnership desk

There is a partnership desk which is available from the time registration opens i.e. 2 hours before the start time.

Follow the instructions to go to the event.

Click on the event and then there is a Partnership Desk tab. Click on the partnership Desk Tab

Here you will be able to see anyone else who has already registered as looking for a partner.

If there is someone who is looking for a partner then they will be listed on the screen

If you would like to play with them then click on their name and then click *Invite*

This will send them a message asking them if they would like to accept your invitation

They must still be online to see your message so if you don't get an acceptance then you could try a second person if they are available.

If they accept then you will be entered into the tournament

You can see that you have been entered by clicking on the entries tab and you will see your name alongside the person who you are playing with.

If there is no-one yet looking for a partner

If you wish to add yourself to the list then click the button for 'I will pay for only myself'.

It is important that you **remain on line** so that anyone looking for a partner can then send you an invitation.

Once you and your partner have been accepted then you can both logoff but please log back in again by no later than 12.50
