

OLD BARN HALL - WATERFIELD ROOM PARKING

The diagram above shows the approximate locations (and relative dimensions) of the designated parking spaces for users of the Waterfield room. When all six are needed by these users they should be occupied in the order indicated by the numbers.

In the event that only four spaces are needed by users of the Waterfield room, **and they arrive later and leave earlier** than the users of the main hall, the two spaces numbered W1 and W2 may be occupied by users of the main hall.
