- Member of 2019 VCC Lease Re-negotiation Committee

The club is surviving significantly reduced participation in face-to-face duplicate bridge games since reopening in June 2021. Virtual club games on BBO have modest popularity and the club will liaise with Little Rock and Hot Springs on interclub virtual games. Tuesday morning rubber bridge and Wednesday evening cribbage have been maintained, but euchre, pinochle, and other rubber bridge games have not resumed since the COVID suspension. The club is blessed to have several excellent volunteers nominated for the 2022 board of directors plus several skilled part-time employees to manage operations and direct the various games. My goal will be increase participation as well seek improved player satisfaction and operational improvements.
