Sandra started playing duplicate bridge 8 years ago. She took her newfound passion to the classroom 6 years ago and has been teaching ever since. She will take you through the various "Standard American" bidding sequences complimented with play of the cards and defensive play. These lessons will prepare you for games played in social settings or at the duplicate bridge club. Sandra's husband, Brian, has been running duplicate bridge games since 2016. Together they offer a terrific experience at the bridge table!
