

# Moysian Fits

When I was young I just  
wanted to be older.  
What the hell was I thinking.

# Time for Some Jokes

**I have a horrible fear of palindromes, so my sick, twisted psychiatrist put me on Xanax.**

**\*\*\*\***

**I also have a terrible fear of intruders sneaking into my home. My psychiatrist told me, “You’re not alone.”**

**\*\*\*\***

**A woman walks up to the pharmacist and says her husband is having an affair, and she needs some cyanide.**

**The pharmacist says, “I can’t sell you that! I’d be a party to a murder.”**

**The woman pulls out a photograph of her husband with the pharmacist’s wife in a very compromising position.**

**The pharmacist says, “Oh, you didn’t tell me you had a prescription!”**

# PRIORITIES

- 1.
- 2.
- 3.

## Exception to the Three Finger Rule

- 1) Find an 8-card major suit fit (♥ or ♠).
- 2) Play in no trump.
- 3) Play in an 8-card minor suit fit (♣ or ♦).

<u>North</u>	<u>East</u>	<u>South</u>	<u>West</u>
1NT	Pass	3NT	

### North

♠ A542  
♥ KQJ3  
♦ J5  
♣ KQ4

### West

♠  
♥  
♦  
♣

### East

♠  
♥  
♦  
♣

### South

♠ KQ96  
♥ A972  
♦ KQ3  
♣ J3

31 total HCPs is not enough for slam. After losing 2 aces, you'll take 3 ♠'s, 4 ♥'s, 2 ♦'s and 2 ♣'s.

And sometimes a long, running suit equates to having extra HCPs.

When you have extra values, but not enough for slam, consider playing in 3NT.

\*\*\*\*

You make 11 tricks in 3NT or 4S.

# Using Adjusted HCPs

These are all assuming an 8+ card fit.

No Trump and an 8-card suit fit need the same HCPs.

You Need More for No Trump

4 HCPs

Finger  
Rule.

# A Moysian Fit

## THE MOYSIAN FIT

Reg Busch

The name Alphonse Moyse Jr would mean little to today's generation of bridge players. But, starting in the 1930s, he was a champion bridge player and a prolific and influential bridge journalist. He was reputed to have written two bridge columns every day for 22 years, most of these as 'ghost' writer for the Culbertsons. In those days of opening 4 card majors, he was a proponent of supporting partner's one major opening with three cards in his suit. His name still lives when bridge writers talk of playing in a 'Moysian' fit i.e. in a 4 / 3 fit.

Whether he would be such an advocate in these days of computer generated hands is a matter of conjecture. But the fact still remains that, not infrequently, we find that 4H or 4S in a 4/3 fit is the only makeable contract.

So don't be afraid of finishing in a 4/3 fit if it seems your best spot. But it would be helpful to understand that there is a secret to playing these hands. Here is an example from a hand played recently in a Florida event.

W	N	E	S
2♦	1♣	1♦	1♥
All pass	2♥	P	4♥
Dir North	♠KQ72		
NS vul	♥A95		
	♦43		
	♣K1074		
♠965		♠J104	
♥Q104		♥J73	
♦KJ972		♦AQ1086	
♠63		♠A2	
	♠A83		
	♥K862		
	♦5		
	♣QJ985		

In 4H, N/S lose one ♦, one ♥ and one ♣, for +620.

\*\*\*\*\*

They lose the same tricks playing in their 9-card fit (♣'s), for +130.

# Recognizing a Moysian Fit

And usually good trumps.

South wins the A♠ and takes the losing ♦ finesse.

He'll get to ruff one ♠ in dummy before drawing trumps, scoring 1 ♠, 1 ♠ ruff in dummy, 4 ♦'s and 4 ♥'s (+620).

North suggests he has a singleton ♠, and South has the perfect holding in that suit (one Quick Trick). Plus, he'll be ruffing on the short side of trumps (♠'s).

The two things to look for.

4 ♥ South

Both Vul

♠ 3  
♥ A J 2  
♦ A J 7 6 3  
♣ K 8 7 4

♠ K Q 10 6  
♥ 7 6 5 4  
♦ 9 5  
♣ Q 10 2

♠ J 9 8 5 4  
♥ 8 3  
♦ Q 10 8  
♣ A J 9

♠ A 7 2  
♥ K Q 10 9  
♦ K 4 2  
♣ 6 5 3

Lead: ♠ K

West North East South

Pass 1 ♦ Pass 1 ♥

Pass 2 ♣ Pass 2 NT

All Pass 3 ♥ Pass 4 ♥

The opposite of Quick Tricks are Soft Tricks (Q's and J's).

# Quick Tricks

Quick Tricks is a method of evaluating a hand's defensive strength.

Basically, it counts the number of "sure" tricks in a suit:

A = 1

AK = 2

AQ = 1.5 (because the Q has a 50% chance of the finesse winning)

Kx = 0.5

KJ = 1

AKQ = 2 (not 3, because someone will likely ruff the 3rd round)

KQ = 1

The disadvantage of this method is that it overvalues Aces and King, and undervalues Queens and Jacks. Both the HCP method and Losing Trick Count method are better adjusted to this problem.

**The RULE:**

**If (HCP + Number of cards in the expected Moysian Fit + Number of QTs) = 20, you do qualify for a Moysian!**

\* **Artificial bid -  
4<sup>th</sup> Suit Forcing  
(to GAME).**

# Bidding a Moysian Fit

<u>North</u>	<u>East</u>	<u>South</u>	<u>West</u>
1C	Pass	1D	Pass
1S	Pass	2H*	Pass
3D	Pass	3S	

North would bid  
3NT with, say:  
♥ AQ10

## West

♠ J73  
♥ A1062  
♦ 1097  
♣ 1042

## North

♠ A1098  
♥ Q85  
♦ K65  
♣ K73

## East

♠ 542  
♥ KJ743  
♦ J84  
♣ QJ

South suggests playing in a  
Moysian ♠ fit, since North  
can have at most 3 H's in his  
hand, and the opponents will  
have no problem finding that  
lead against 3NT (down one).

## South

♠ KQ6  
♥ 9  
♦ AQ32  
♣ A9865

North can now bid 4S for 11  
tricks, losing one ♣ and one ♥.  
\*\*\*\*  
Declarer should lose a ♣ early,  
before drawing trumps, to  
maintain control of the hand.

# One More Joke

N/S have no chance in 3NT,  
so elect for a Moysian (4-3) in  
♥'s rather than play in 5D.

\*\*\*\*

West leads his K♠, A♠ and Q♠,  
trying to shorten South's  
trump holding.

# Playing a Moysian

South should discard a ♣ or  
a ♦ on the 3<sup>rd</sup> ♠ to keep  
control of the hand.

\*\*\*\*

If the opponents have 6  
trumps total, they will break  
3-3 only **1/3** of the time.

NORTH			
♠	5 3 2		
♥	K J 9		
♦	A K J 9 7		
♣	8 4		
WEST		EAST	
♠	A K Q J 7	♠	10 9 6
♥	8 7 6 3	♥	4 2
♦	4	♦	8 5 3 2
♣	K J 5	♣	Q 10 7 6
SOUTH			
♠	8 4		
♥	A Q 10 5		
♦	Q 10 6		
♣	A 9 3 2		

Aristotle said, "All  
human actions have one  
or more of these seven  
causes: chance, nature,  
compulsion, habit,  
reason, passion, and  
desire." So don't leave  
things up to 'chance.'
