

## Note 2 How to put money into your BBO account

1. Log into BBO
2. Click the blue button marked BB\$
3. Click purchase BB\$
4. We are charging \$4 (about £3.40 in the current rate of exchange) for each game. You can put the exact amount need for the game or put in \$20 for example. Each time you log in a little box will appear for a few seconds giving you your balance.
5. It seems that you may be better buying the \$s by logging on through the BBO website as suggested rather than through the APP. (the APP is an alternative way to log onto BBO and is available to download on tablets and ipads.
6. We are charging for our games as we need to pay the EBU to set up the game an hour and a half before the start time, manage and direct the game, deal with any after game queries, complete the administration of send results to the EBU and putting the results on our website. As we are a members' club we are not aiming to make a profit but we are hoping there will be some money left over that will go towards the maintaining our lovely building for our return.
