June 2020

What's happening in the Club ?

International Session

This will now be on **24th June** at 13.00 hours.

We are hoping to field 12 teams, so if you have not already signed up please email me, rokaye@hotmail.com asap

Your thoughts please on Robots

The committee will be meeting in July on Zoom and we will be discussing the use of robots.

Please let me know what your views are by email. Head the email 'robots' and I will share replies with all the committee.

A plea for use of the 'UNDO' on BBO

If you are playing in the club games and your opponents request an undo immediately please say yes. If there is a pause use your judgement but remember not every member of the Club is as good with technology as you are!

You can minimise the chance of bidding incorrectly by opting to have to press twice before a bid is accepted.

Stay safe,

Ro

Bubbles celebrated her 90th birthday on 1st June. She is one of the happiest, most cheerful members of the Club, and we love her.

We wish you a happy and healthy 90th year

A big thank you to Penny Stanbury who has been CBC's secretary for the last year. She produced excellent minutes and supported the Club and the Committee in many ways. Penny is known to lots of members through her work for Sue Ryder and the Quiz evenings she arranges to raise funds for this wonderful hospice. She is helpful and caring to all members and we thank her for her hard work and making everyone feel at home in the Club.

CHEL TENHAM BRIDGE CLUB

CBC and the New Club

Below is a photo of some of the 80 + lovely laundry bags members of CBC and the New Club made for the care workers in the local residential care homes. Thank you to all who donated fabric too.

A real team effort!

Guess who I met in the University grounds?

If you have not visited the University of Gloucestershire grounds in the Park, you are in for a treat. They are set in 23 acres of grounds and were designed in 1831 to be Botanical and Zoological Gardens. The lake is in the shape of Africa. During lockdown this was a very lovely place to walk and enjoy the peace and quiet and to watch the goslings developing.

One day, while walking there, I bumped into Cynthia Moore and her sister-in-law who is moving to Cheltenham and wants to learn bridge!

Can you name these trees which are in Cheltenham parks? Answers next newsletter

Do visit the many parks in Cheltenham because we are blessed with wonderful trees from all over the world.

The coffee outlets are open and you can have an enjoyable walk with friends, all socially distancing!
