Close: Rolling Results (Browser)
ScoreBridge: Select 'all boards done'. *Do not return to wireless*
Results: 'Send' to BridgeWebs (Internet) & close Browser
BCS: Check auto-closed, else close manually
ScoreBridge: Close 'Event' & close ScoreBridge
Handsets: Re-set if necessary
Laptop: Close-down laptop, server and mouse

Hand Input

- ScoreBridge: When completing the Event Profile, ignore the 'Select Hand Record File' option
- No action: Until BCS is auto started...
- BCS; On Configuration pop-up, check the BMII tab is set for hand input after each board. **This is where hand input can be switched off.** Alter and save, if necessary. Close pop-up.
- Coffee break: Check (ask Director) all boards have completed hand-input. *If not, try again later*
- BCS; Select 'File' option from the Menu bar and 'Export to PBN' from the dropdown
- Press the 'Save' button, on the prefilled file-save prompt.
 - Check a new deal file has been created. *(If not, some boards have not been input. try again later)*
- ScoreBridge; Select Score-Sheets button. A pop-up prompt to connect the deal file will appear.
- Select today's prefilled file and press open button.
 - Hand records will appear on the boards' score sheet.
 - *(If no prompt, request to connect using the 'Preference' drop-down menu.)*
 - Close Score Sheet tab.

No further action. The connected deal file will be uploaded to BridgeWebs when you 'Send' the final-results to BridgeWebs.
