

## How to add a Friend to BBO on an iPad

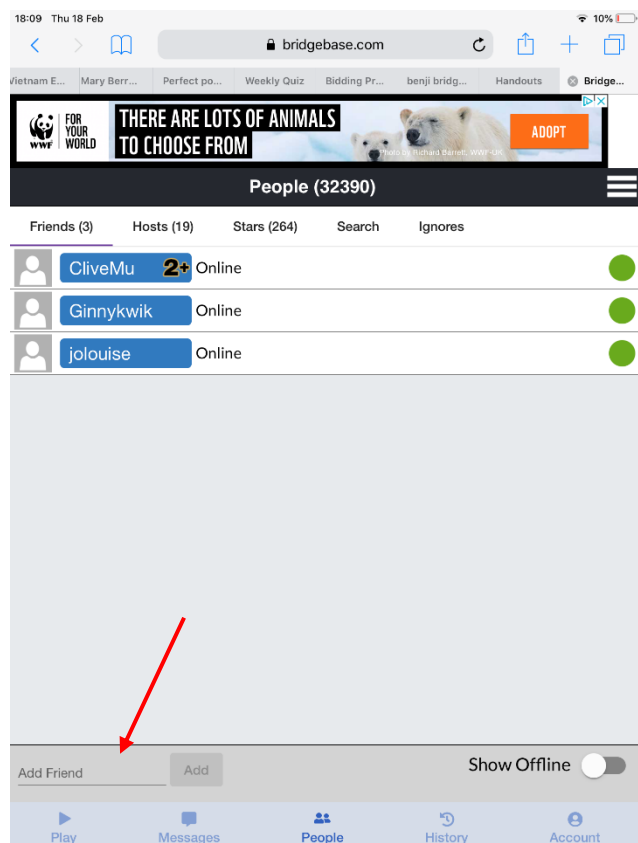

Log on.

Click on People

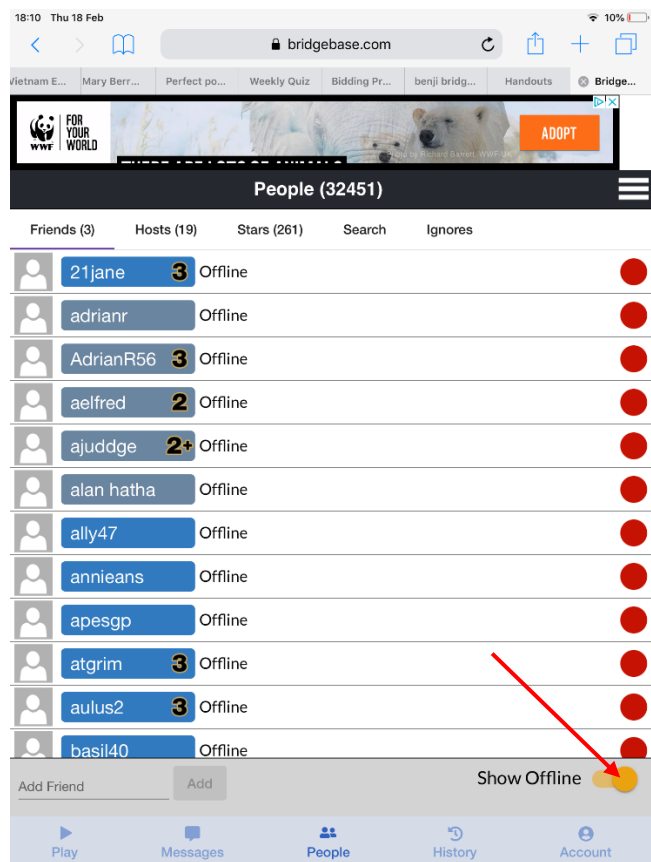

Type your friends BBO Username on the line where it says (faintly) Add Friend

Click on the blue Add square beside the Username you have typed. If your Friend is online a blue box will appear in the People section (under jolouise in my picture). It will say beside the blue box if your friend is online or which table they are playing at.

If your friend is not online and you would like to check that you have entered their username correctly, click on the white circle beside Show Offline so that it goes yellow. Your friends username in a blue box will appear in the People section of the page. Click on the yellow circle to turn it white again.

Click on the blue arrow in the top left corner of your screen to return to the BBO Home page
