

How to buy BB\$.

The first thing to say is that you should always buy your BB\$ from the BBO website. The link in this article will take you to the website no matter on what device you are reading this. If you normally play on the app on a tablet or phone do not buy BB\$ via the app they are much more expensive that way as Apple and Google take their cut (30% in Apple's case) and they also set the exchange rate. So follow the link below.

You buy you BB\$ in advance so there is no fiddling with credit cards at the start of the event. In fact you could buy them right now. Don't leave it to the last minute.

Follow [this link to buy BB\\$ on the web](#)

You will see this screen. Enter your BBO username and password and click continue.

The screenshot shows a web browser window with the URL <https://www.bridgebase.com/purchase/pay.php>. The page title is "Bridge Base Online - Purchase BB\$". The page content includes a "Start over" link, a notice about BB\$ being non-refundable and non-withdrawable, and contact information for accounting issues. Below the notices are two payment options:

- Pay with a credit card:** This option requires the user to enter their BBO username (shown as "squeezezergb") and password (masked with "*****"). A "Continue" button is located below the password field. Logos for Visa, Mastercard, and American Express are displayed at the bottom of this section.
- Pay with PayPal:** This option asks "Want to pay with your paypal account?" and includes a link to "Click here to pay with PayPal". A "PayPal VERIFIED" logo is shown at the bottom of this section.

You will then get a screen like the one on the next page where you can enter the standard details for an online credit card purchase. Note that the default amount to buy is BB\$20 but you can alter this. BB\$1 costs US\$1. Your credit card company will set the exchange rate and probably make a small charge for a foreign currency transaction but each BB\$ will still cost you less than £1 which would not be the case if you used the app.

That's all there is to it. You are now ready to play in paid games on BBO.
