All Captains! Please don't wait to the last minute to fix your games. If it is impossible to play a game by the due date (other than 30th April which must be observed), inform the Organiser and arrange to complete the fixture on the earliest date possible. Because there are now 7 Teams in this Division, with an extra match for each compared with the past few years, it is particularly important to keep up with the schedule. Don't let a fixture pile-up develop!

The Home captain should contact the opponents' captain to offer a choice of dates. Play may be on any day of the week and at any time of day that teams find convenient. For many players afternoons suit them best. Although a month is allowed for most rounds, matches may be played earlier.
