

The End Of The First Weekend

Session 3 of the Round Robin saw **Protec** score another maximum while both **El Ahly (2)** and **El Gezira (2)** had fine wins. Session 4 showed what an up and down game bridge can be as **Wadi Degla** went from a zero to a maximum, with **El Gezira (1)** only two IMPs for a maximum.

At the top of the standings **Protec** have a substantial lead but there are four teams behind them all within four VPs of one another, they are **Heliopolis**, **El Gezira (1)**, **Sporting** and **El Ahly (2)**.

Information for Captains

Very important notes, Kindly circulate to all of your players

1. The BBO accounts for the TDs are as follows :
EBF, EBF_1, EBF_2, EBF_3, EBF_4 and EBF_5
2. At the beginning of each match/session, the TDs have to start more than one table at the same time in order to host all the championship matches and they place the players in their seats according to pre-sent line-up.... Sometimes, we have a late offline players (please check the event regulations for penalty of late arrival at BBO) and this may cause some delay in the other matches/tables.

In order for the TDs to avoid this, they will hold an empty seat for you and they will move to host another match and then back to the late table. For that reason, it is quiet normal that your players might have a message from the TD through the BBO server with the following text

Want to substitute

Would you like to play in Teams tournament # xxxxxx Teams "Egyptian League as a substitute? Your partner will be xxxxxxxx"

YES NO

Please alert your players to accept this request ASAP.

*VERY IMPORTANT NOTES *

The BBO Management recommends that you wait in the main section of BBO when you are about to receive an invitation to play. Different areas of BBO are managed by different servers, so if you are located in the casual section the system may read you as being offline even if you are online.

Also, we use a special procedure in order to make sure that all of our matches are starting at the same time. We start inviting players and set up the team match some minutes before the official starting time. This may result in your partner already sitting (and waiting) at the table of Egypt League Inter-Club match while you are still in the lobby. That is totally normal, and is done in order to be more precise on the starting time. We kindly ask all players to just stay in the lobby (main section of BBO or in the competitive section) and wait for our invitation.

Round Robin 3

El Gezira (1)

After the first two rounds Heliopolis and El Gezira (1) were lying fourth and fifth respectively. Both teams would want a big win to stamp their authority on the leader board.

If East/West are really playing a 14-17 no-trump then perhaps this hand will convince them to change their mind. I agree they are a trifle unlucky in that South has an obvious diamond lead and even more unlucky in that 3NT makes all the time because the diamonds are blocked and only four can be cashed.

Strangely on this hand East did not alert his 1NT as 14-17. When South started with a small diamond declarer won with the ♦10, cashed five rounds of clubs and then led a heart. When South leapt up with the ace, ten tricks were assured.

West, perhaps taking a rosy view of his four nines invited to game and was accepted. South happened upon the lead of a small spade to the ace with a continuation of the ♠10 covered by the queen and king and then cleared the suit. A heart towards dummy was won by the king, this showed that the heart ace was not with two winning spades. Five rounds of clubs followed leaving ♥Q9 and ♦Q9 in dummy. Knowing that only two diamonds were outstanding declarer cashed the ace. At this point declarer can lead any card from hand to make the contract, the only continuation to go down is to play a small heart and then put in the ♥9 in dummy. Yes, you guessed it, declarer snatched defeat from the jaws of victory. Declarer knows South still has the ♦K and therefore has one heart

and one spade or two hearts, if it is one heart then North has three including the ace, if it is two then North originally had five spades and we know from earlier that if that was the case then with the ace of hearts the contract would have been down a lot earlier. QED South has the ♥A. So 6 IMPs to El Gezira (1) rather than the opposite score.

This sequence is the real reason I included this deal. All bulletin journalists live to report a Biltcliffe coup. This has four parts, 1) the auction could have been passed out in a part-score 2) a bid is made and then the opposition continues to game 3) the game contract is doubled 4) finally the contract is made. West could have passed out 3♥ but he took a bid, the opposition continued to game,

West then doubled. Would the game be made and a report of a Biltcliffe coup appear in the bulletin, sadly not for there was no way for declarer to engineer a tenth trick so two IMPs to Heliopolis.

I am not sure what South was trying to say with his 3♠ bid but obviously it was showing some strength. North kept his powder dry awaiting developments and when East attempted to steal the contract he entered the fray with his heart suit. I would be grateful if someone could explain the logic of East's Double, his defensive assets appear to be the chance of a trump trick (and even that did not come to fruition) and it got the result it deserved. When declarer took a successful finesse in the trump suit he was rewarded with an overtrick. The club slam was always there but would one want to be there – it requires the hearts to come in without loss and after the weak two bid that does not seem overly likely. Notice that had West switched to a club at trick two after winning the opening spade lead the contract would have only just made.

South may have been over optimistic in his expectations in defence. To show a profit by passing you will need to take the contract three down as you must believe you have a certain game. Additionally defending low-level doubled contracts can be tricky and frequently a trick can be lost in the defence which was the case here as declarer was permitted to ruff a heart in dummy and so escaped for one off and ten IMPs to Heliopolis.

An Interesting Deal

Session Two of the Round Robin produced an interesting play and defence hand towards the end of the match.

Board 15. Dealer South. N/S Vul.

♠ Q76 ♥ Q64 ♦ K1073 ♣ AJ6		♠ J108432 ♥ J3 ♦ J6 ♣ KQ5	♠ K95 ♥ K985 ♦ AQ52 ♣ 109
♠ A ♥ A1072 ♦ 984 ♣ 87432			

At nearly all the tables the contract was 3NT played by West. Of the nine times it was played it failed three times, unfortunately not because the defence was at its best but because declarer did not make the most of his opportunity. At two tables on the lead of the ♠J declarer played the ♠K from dummy, a play I find surprising. The lead suggests that North also holds the ♠10 and thus playing small from dummy would give one a finesse position, so playing the king led to defeat. Let us see how the hand should be played.

North leads the ♠J, small from dummy and South wins with his ace. Now the obvious switch to clubs with the ♣8, declarer correctly ducks and North wins with his queen. He can exit safely with a spade. Declarer may need to preserve entries to dummy and so plays low and South discards the ♣7.

The general plan is to either make two heart tricks or force North to lead a club into the tenace. From the play of the hand you know North has six spades and the ♣KQ with probably just one other, this leaves four red cards. How do you read North's distribution, the more likely is 2-2 in the red suits. If you assume that this is the distribution then your best hope is he has the ♥J doubleton.

So armed with this plan declarer now has to take four diamond tricks finishing in dummy. This calls for careful management of the spot cards. Play the ♦7 to the ace and then the ♦2 to the king and then the ♦10 to the queen. This leaves the ♦5 in dummy and the ♦3 in hand. Now cash the last round of diamonds and lead a heart towards your queen. Is North wide awake? If so he can thwart your plan by throwing his jack under your queen. It is your lucky day as North plays a small heart. You now cross to dummy with a spade and lead the ♥8. What is South to do? If he rises with the ace the ♥K becomes your ninth trick and if he plays small then North must win and can cash a spade but then lead into the club tenace and poor old South goes to bed with the ♥A.

If you believe that North has three hearts and one diamond then you can make the contract without an error by North if he holds either or both of the ♥J10. At the point where you started to cash the diamonds just take one round to enter dummy and lead the ♥9. If South ducks you run it to North who will exit with a spade and you can now lead another heart towards your queen thereby setting up a second heart trick. Any other play by South either immediately gives you two hearts tricks or exposes North's honour to a finesse.

Those hearts spots were vitally important as was their location.

Round Robin 4

Sporting had had a nice lie in as they had a bye in the first match of the day. Would they be refreshed and in tip top form or still slightly sluggish with sleep still in their eyes. El Ahly (1) would be hopeful it was the latter.

Here North led the ♥Q to declarer's ace. He unblocked the diamonds and attempted to cross to dummy with a heart ruff, he was soon a wiser and poorer declarer as South overruffed, cashed the ♣AK and led another to allow North to make his ♠K. Declarer received the lead of the ♥10, taken in hand and immediately set about the club suit. North went in immediately with the ace and continued with a diamond. Declarer took this in dummy and came to hand with the ace of trumps to take a successful club finesse. A small spade brought the jack from South, queen and North's king. A heart continuation was ruffed in dummy and the ♠10 drew the outstanding trump. The ♣K provided a parking spot for the losing heart and declarer could concede a diamond trick and have the rest for a well-played hand and the contract.

East got the hand off his chest in one simple manoeuvre. North doubled and South had to decide whether this was based on defensive tricks or was for takeout. As South I would have taken the double out but then I have sight of all four hands but I am in no way dogmatic about it. It is not possible to always make the right choice when the opposition have pre-empted. Declarer lost the obvious two diamond tricks and scored up 750.
