Most pairs managed to bid 6♠ with only two pairs bidding the Grand Slam.

This was the auction of one of the Grand Slam bidders and it is hard to improve on it – simple and effective.

The 1♣ opening is routine. The 1♠ response is well judged – if you respond 2♠ on these hands neither of you will know how to proceed – a simple 1♠ response is recommended whenever you have a two suited hand.

If West is well versed in ‘counting losers’, he will see that he has a 6-loser hand and that 3♠ should be his response.

If East is similarly well versed in LTC he will know that with his 5-loser hand that his side is in Grand Slam territory and he wheels out RKC Blackwood.

West’s 5♠ response shows ♣A and ♠KQ – music to East’s ears and he can bid a confident 7♠. Well done Peg and Donal.

Of course West should not encourage at trick 1 - West should only encourage if he has the ♥A or the ♥J and since West has neither card he should discourage.</p> <p>Now if East switches to a spade then declarer will go down in his contract in the fullness of time. West gets in at some point with his ♦A and shoots a heart through declarer's ♥AJ.</p>		West	North	East	South		1♣	1♥	Dbl	Pass	1NT	Pass	3NT

As is often the case, any declarer who makes 12 tricks will score well whether they are in 4 ♠ or 6 ♠.

West leads the ♣K and declarer should see that he has 6 spade tricks, 2 heart tricks and 1 club trick and therefore needs 3 diamond tricks.

The best way to play this diamond layout is to take a ruffing finesse i.e. play a diamond to the ace and then run the ♦Q and discard a club if the ♦Q is not covered.

We take the ruffing diamond finesse before drawing trumps because we need trump entries later to get over to dummy to ruff out and establish those diamonds.

So after drawing trumps and knocking out the ace of hearts, declarer can win the ♣A, cash 3 heart winners and ♦K and then lead his last two trumps....North will be squeezed and will have a choice of either baring his ♦Q or discarding his ♣K.</p>

## Sligo, Killarney Game – Wed 11<sup>th</sup> May 2022

**Board 6 : Dealer East : EW vulnerable**

<i>West</i>	<i>North</i>	<i>East</i>	<i>South</i>
		1 ♥	Pass
1NT	Pass	4 ♥	All Pass

Most roads will lead to 4 ♥ but a few will languish in 3 ♥.

Once West shows 6 points then East should know that they have 25 points and when his hearts are as good as they are (suit quality test of 10) then he should just bid 4 ♥ rather than an invitational 3 ♥.

Of course, he might be happy that he only bid 3 ♥ if he only makes 3 ♥.

To make 4 ♥, declarer needs to establish two club tricks while keeping the ♠A as an entry to the second club trick.

So win the spade lead in hand with the King. Play ace of clubs and then lead the ♣J. South can take his ♣K but now declarer can get to dummy with his carefully preserved ♠A in order to cash the established ♣Q discarding his losing diamond (or spade) in the process.

E/W have 26 points and no 8-card major suit fit so they would like to land in 3NT.

South leads ♥J and declarer counts his tricks – 2 hearts, 1 club and 2 spades for 5 top tricks. He can establish 3 more in diamonds by ‘chasing the ace’ and he can get his ninth in spades by either correctly finessing or by conceding a trick to the queen.

Whenever we have to lose the lead twice, we start by attacking the suit where our long suit opponent might have his entry – so we play on diamonds first. South wins and continues with a second round of hearts. We can hold up our ace until the third round of the suit.

Now we go about setting up our ninth trick in spades by cashing the king and running the ‘10’. North wins but has no more hearts left.

Of course we’ve made sure to keep our ♦10 entry to our ♠AJ.

		<p>E/W have 25 points and an 8-card spade fit so they would like to land in 4♠. Yes N/S can defeat it if they can find their diamond ruff (but it's no obvious to find if South leads ♥J and declarer plays a small heart from dummy).</p> <p>However the question is - should East bid 3♠ or 4♠ or even should maybe West have insisted on game by rebidding 3NT instead of 2NT?</p> <p>It seems both players have reasons to upgrade their hands and still we can't fault those E/W players who don't upgrade and land in the actual top spot of 3♠.</p> <p>You pay your money and you take your chances.</p>

## Sligo - Mon 31<sup>st</sup> January 2022

### Board 3 : Dealer South : EW vulnerable

West	North	East	South
			1NT
Pass	Pass	Dbf	All Pass

1NTx-7 will not be pretty for N/S but I doubt this result will be replicated at the table.

If playing weak NT then South has a perfect 1NT opening bid. If West overcalls 2♠ then East has an easy raise to 4♠. However it is not really advisable to overcall with a 5-3-3-2 shape at the two level so West does best to pass.

Now the spotlight turns on East. A simple 2♦ overcall does not do justice to the East hand and with 15+ points and such a good suit it must be tempting to make a penalty double of the 1NT bid.

West should be happy to leave South play in 1NT doubled especially when it turns out that the defenders win the first 13 tricks!

If N/S can somehow escape to 2♣ then the most likely best result for E/W will be to reach 4♠. If N/S take their club trick then declarer makes 12 tricks otherwise declarer makes all 13 tricks.

There is no way route to 6♦ or 6♠.

		<p>N/S have 25 points and an 8-card spade fit so they want to land in 4♠. When East bids a game forcing 3♣ then West knows they have an 8-card fit and can jump to 4♠.</p> <p>To make 12 tricks, declarer embarks on a dummy reversal by ruffing 3 diamonds in her hand. Win the heart lead with the ace, then a diamond to dummy's ace and ruff a diamond with the ♠A, a trump to dummy, ruff a second diamond with the ♠K, a trump to dummy and ruff a third diamond.</p> <p>Now a club to dummy's ace, draw the last trump and win three tricks with 3 club winners and lose the last heart trick to South.</p>		West	North	East	South			1♠	Pass	2♦	Pass	3♣	Pass	4♠	Pass	4NT	Pass	5♠	Pass	6♠	All Pass

South liked his hand and decided to treat it as 21-22 balanced.

West led his fourth best heart and dummy's ♥Q won trick 1 and then led a diamond to his Jack and West's Queen.

West played a second heart and declarer won with the ace and led his ♦K. East won with Ace and returned the ♥J.

All West had to do was allow East's Jack to win the trick and then overtake East's ♥10 on the fourth round of hearts to be able to cash the fifth heart for the setting trick.

Sadly West overtook East's ♥J and now the suit was blocked so the defenders could only win 2 heart tricks instead of 3. 3NT made.

East led a small club to West's King and West returned the 8 to East's ace.</p> <p>If West is a good player then her ♣8 return then West is saying that she K8x in clubs or possibly K8 doubleton and this information should help East to figure out that declarer has Q9xx or Q9xxx in clubs so that returning a third club will give declarer a soft club trick.</p> <p>By winning with the King, West is denying the Queen and by returning the 8 at trick 2 she is denying the 9. ## Sligo - Wednesday 5<sup>th</sup> January 2022

Board 2 : Dealer East : NS vulnerable

West	North	East	South
		1 ♦	Pass
1 ♥	Pass	4 ♥	All Pass

4♥ by West was a popular contract. West is worth a 1♥ response with his 5 HCP and a 5-card suit. Although North has 12 HCP he has no good bid – double would show the unbid suits especially spades and bidding 2C with such a bad suit is not recommended.

The good advice is that ‘when you’re fixed - stay fixed!’

East with 17 HCP and a singleton is well worth a 4♥ rebid.

Most defenders successfully managed to get their 4 tricks to defeat the contract i.e. 2 hearts, 1 diamond and 1 club. Sadly however some N/S pairs ‘blew’ their diamond trick.

Both defenders have one job each to do – North has to make sure that he does not squander his HA on small cards – he needs to make sure that his HA captures an honour – and South needs to make sure that he does not discard one of his diamonds or that if he does keep his three diamonds that he does not play his D10 on either the first or second round of the suit.

South’s D10 will win the third round of diamonds as long as South still holds that card.

Of course the 1♠ overcall would not have caused any problems for an experienced E/W pair familiar with 'Negative' or 'Sputnik' doubles. A double by West says 'My double is a 'Take-Out' double showing 7+ points and 4 cards in each of the two unbid suits – but for sure I have 4 cards in hearts'.

Armed with the knowledge that his partner has 4 cards in hearts, the East hand jumps up in value from 17 to 19 (1 point for each doubleton) and he can rebid 4♥. Even if East is cautious (reasonable with 6 losers) and only rebids 3♥, the West hand with 8+1 points is worth a raise to game. But even E/W languish in 3♥+1 it is still better than 3♦-1.

Even if South decides to make a questionable vulnerable weak jump overcall, West or East can still deploy their new 'Negative Double' gadget and get to play in a heart contract or they might leave South stew in 2♠x.

**Tip: Learn 'Negative' doubles. These are basically take-out doubles in response to partner's opening bid showing the other two suits but definitely guaranteeing 4 cards in any unbid major.**

Looking at all 4 hands you can make all 13 tricks. Quite a few did not get to slam and quite a few just made 12 tricks. More worrying however is that quite a few only made 11 tricks.

On a really bad night it does look like you might potentially lose a diamond trick and a second trick to the queen of spades. However that should not happen. It is understandable that you might lose a trick to the spade queen by deciding to play for the drop i.e. by cashing your ace and king of spades but if you now go about your business of cashing your 4 heart winners you can dispose of your diamond loser from hand before East gets in.

The cunning declarers who made all 13 tricks knew that the correct play in spades was to play for the drop but they gave themselves an ‘edge’ by leading the jack of spades from hand – their intention was to rise with the ace and cash the king thereby losing a trick to East’s queen – but by leading the jack they tempted a few East’s to blindly cover an honour with an honour.

**Tip: Never cover in the trump suit.**

When opener rebids 1NT (15-17), West can immediately rebid 6NT but does best to investigate a possible 4-4 spade fit or a possible 5-3 heart fit in case there is a grand slam in spades or hearts available. It is good policy – with balanced hands to either open 1NT or rebid No-Trump – which implies that if you do rebid 1♠ in these auctions that you have a 5-4 distribution rather than a more balanced 4-4 distribution.

Some pairs play a 2♣ rebid here as checkback and others, as here, play XZY where the 2D is game forcing and asking for more information. East's 3H shows 3 cards in hearts and a maximum hand.

4NT is RKCB (Roman Key Card Blackwood). The 5♥ response shows 2 key cards without the ♥Q.

West decides that bidding the grand slam missing the ♥Q is too risky so he settles for his original fall back plan of 6NT. All roads lead to 13 tricks.
