##### Message from Club:

This is from 133900. We use Bridgewebs. It seems you pull the name of a game from ACBLScore. That generates an error when the name on our calendar differs from the name in ACBLScore. In manual mode, you can override it. In automatic mode, the uploader ADDS a line to the results calendar; one from the ACBLScore descriptor and one from our calendar. The automatic mode also leaves the finished game in the regular calendar, instead of deleting it. Bridgewebs users have to use manual.
