More about Ben Norton

Ben is 25 years old. Loughborough Grammar School cultivated his love for the game and from there he progressed to Loughborough Bridge Club. Before long, he was playing for Leicestershire and benefiting from the EBU's scheme to develop young players

Since then, Ben has played in a range of international events including the Junior World Championships and the Junior European Championships. He has been presented with the Young Player of the Year Award on two occasions and, more recently, was selected for the Camrose Trophy, the UK's Home International teams event.

Last year, Ben, partnering Mike Bell, was selected to play for England in the European Championships with team mates Michael Byrne, Kieran Dyke, Tom Townsend and David Bakhshi. Success followed: England qualified for the Bermuda Bowl, Bridge's World Championship Teams event, recently held in Italy from 27 March - 10 April 2022. The team finished fifth out of 24 in the all-play-all first round, thus qualifying for the quarter-finals. There, drawn against Switzerland, an experienced team of world experts, a gruelling match of 96 boards proved a little too much for England. Switzerland went on to win the World Championships; so, not surprisingly, our England team, including Ben, have high hopes for more success in the future

We're sure that many of you would like to meet Ben, hear about the highs and lows of the Bermuda Bowl and get to know him better. The good news is that he has agreed to share some of his recent experiences with us on 29 June and 6 July 2022, from 7.00pm - 9.30pm at the County Bridge Club. Over two sessions, playing hands selected from this year's Bermuda Bowl, you and your partner will compare your scores with those of England and other top teams. It offers a great opportunity to celebrate the achievements of Leicestershire's very own world class player.
