## HOW TO CLAIM YOUR REMAINING TRICKS

Did you know that you do not need to play out all your cards?

If you know you have ALL the remaining tricks, or, that you will win MOST of the remaining tricks then you can 'Claim' immediately. The opposition will either accept or reject.

By 'claiming' you speed up the game and keep the game moving at a steady flow.

This is a particularly useful tool to use if the tournament is CLOCKED ie you have a set amount of time to play the boards.

When playing you will notice a 'Claim' (blue) button on the board – just click on it and state how many tricks you are claiming.
