Partner

I will pay for both myself and my partner

Click on the Partnership Desk and register your name. This will show all members that you are available for a game.

Please note that:-

- a) You will not be charged any BBO \$'s at this point.
- b) Members will see you are free for a game and if any other member finds him/herself in the same position, then you both can join together as a pair. One member simply 'invites' the other via the key available on screen. You will both then be charged the appropriate fee.
- c) The TD instantly sees who is available for a game and should a half-table arise then the TD will automatically invite you to play when the tournament has commenced. You will not be charged for this at all.
