

Larsky Report

Last year's format for the return to a f2f Larsky seemed to work well. I therefore propose that all events held by clubs in the week's commencing:

19th November

4th December

6th January

act as qualifiers for the semi-finals this year. We should tell the clubs so they can tell their members if they chose but not publish these dates on the website so that we do not encourage people to play in clubs other than the ones in which they would normally play.

I would also like to propose that this year the Saturday 9-High events in those weeks also act as qualifiers

I will try to book the usual semi-final venues. The final is early this season on 9th March so I will aim to have the semi-finals completed by the 3rd week in February which means at least one will have to be in half term week. Also we should increase the table money at semi-finals to £4 per player.

Over the years I automated or simplified the various processes. This year I aim to document them with a view to having someone assist me next year with view doing the work on their own the year after.
