

## **KCBA archives update report**

Report of changes to archive since the April 2024 committee meeting.

This has been another quiet period for the archive as most aspects of our history has now been documented and added to the website.

An article for Dick Payne has been added into the KCBA people section following his sad loss, there are now 56 articles in this section.

Routine updating of various sections such as “Trophy Winners”. “Garden Cities” etc has continued and the website updated.

There have been 11 old AGM minutes from years 1962 to 1983 typed up in the last few months, most were hand written. It appears there are quite a few years where the AGM minutes have not survived, at present those from 1969 to 1978 inclusive have not been found. There has been no further progress in scanning some of the older minutes so that they can eventually be added to the website.

The average number of archive pages on the website accessed in the last three months is just over 1100 per month. The section which was most accessed was the “trophy winners” which averaged just over 400, followed by “KCBA people” with 250 and then “KCBA officers” with 90.
