

## **KCBA archives update report**

Report of changes to archive since the July 2024 committee meeting.

There have not been many changes to the website archive in the last few months as our history has now been well documented and put online.

Routine updating of various sections such as “Trophy Winners”. “National Successes” etc has continued and the website updated.

There have been two old committee minutes from 1977 typed up in the last few months, the originals are not very clear and might be hard to scan. In addition, the 1999 minutes have been scanned in preparation for their eventual addition to the website.

The average number of archive pages on the website accessed in the last three months is just over 700 per month. The section which was most accessed was the “trophy winners” which averaged just over 220, followed by “KCBA people” with 160 and then “KCBA officers” with 40.
