

My apologies, I have had no Internet for a week so I have been unable to submit a formal report for this quarter.

However, to summarise briefly, I promoted the Hartlip -9 high to all teachers and personally to my local Deal Clubs. We had 6 players attend this competition from Deal and the table numbers overall showed a slight increase on previous events. This was mainly due to Medway towns players which is a pretty disappointing result from the rest of the County. The venue was highly praised by all our Deal players and it was a fun and friendly event which was ideal to encourage players to start to enter County competitions. I should like to thank Sharon for her work as TD which ensured the day went well.

I had just two responses to my 37 emails regarding this event, one teacher offering to promote it, another from a teacher complaining their Club Chair had not been sent my email. I wrote to that Chair and explained that my email was sent only to teachers, but that he would have received a letter from Stephen (which he had) and it turns out he has been doing some teaching and wants to go on the next TTC. His name has been added to my waiting list of potential teachers, so this was a good result.

I have also held discussions with the committees of both EBU clubs in Deal regarding Youth Bridge and formal letters have been sent to KCBA Chair detailing our individual responses.

Kind regards
