

AEO report for KCBA Committee Meeting September 2026

I contacted all teachers on 4th August, regarding their Autumn teaching programme. My email explained how each teacher could add all new and existing classes on to the My EBU website. They were advised that this would result in some free advertising by the EBU enabling potential students to find full details about our Kent Teachers classes or events such as Open Days, or Taster Sessions. By completing and sending off the form the details of their classes would also be published on the www.enjoybridge.co.uk/find website which is compiled by the EBU and a general internet search on how to play bridge or learn to play bridge should bring this website up near the top of the listings.

At the same time, I also mentioned the recent update from EBED about Teacher Training Courses, letting our Kent Teachers know that I am currently compiling a list of potential teachers from our Clubs who would like to attend the next TTC held in Kent. This prompted three more requests and their names were added to my list making a total of 7 held so far and I shall be contacting the teachers again this quarter to ask them to promote this again to their current teaching assistants and club members in order that I may ask Richard Croote to arrange a further course in Kent in the near future with a full complement of 12 applicants from our Kent clubs.

I am currently preparing a report on teaching in preparation for the next meeting of our Working Group.
