

## **KCBA archives update report**

Report of major changes to archive since last committee meeting, this is in addition to minor corrections or updates.

A new section should be added in next few days which records successes of Kent players in national competitions over the last 80 years. This is the culmination of research over quite a few months.

No new article has been added to the KCBA people section since that for Mike & Daphne Williams earlier this year. It is expected that two new ones should be added very shortly for Colin Thame & Bill Bowen. One is now being prepared (for future use) for Mike Buckley who was part of the team that dominated the Arnold Cup in 1960s.

The trophy winners section has had more 2017 winners added. Earlier this year second & third place pairs were added to many pairs cups & also the runners up in the Arnold Cup, with unfortunately still quite a few gaps.

The KCBA history document has been updated to include some 2017 news plus a few extra pieces for earlier years which again should be added to website soon.

A list of Pachabo results for Kent has been compiled, mainly from EBU website & magazines. Unfortunately there are quite a lot of results missing from 2003 & earlier years so an attempt will be made to find them.
