

# How to make an Android Shortcut

1. Use Chrome to access the desired website (e.g., [www.bridgewebs.com/lakeclubsinc](http://www.bridgewebs.com/lakeclubsinc))
2. Tap on the three dots on the far right of the address line.

3. Tap “Add to Home screen” on the drop-down menu.

4. This will place a shortcut on your Home screen.
