Online Bridge Lessons

Why learn 2/1?

- 1 Learn why 2/1 is used by most top players.
- 2 The 2/1 system helps partners exchange more information about their hands at a lower level, making it easier to find the right game or slam contract.
- 3 In 2/1, a response at the two level in a new suit to an opening bid of 1♥ or 1♠ is game-forcing and because the partnership is committed to game, you don't need to jump around to show strength.
- 4 The 2/1 system gives you more bidding space to show extra values, describe your distribution and exchange control-bidding information at low levels.
- 5 Increase your number of partnerships by knowing how to play 2/1.
- 6 Upgrade your knowledge of conventions that make bidding 21 point games and 24 point slams much simpler.
- 7 Come on out and have fun learning something new or refresh what you know.
