

YOU'VE BEEN MISLED

SOMETIMES IT'S MISINFORMATION

If Opps bid as their agreement but explained the bid wrongly (including late alerts) then:

- You can change your bid if partner has not yet bid
- You can change your card if partner has not yet played
- If it's too late Director will say play board out and will adjust the score later if needed
- If Opps are Declarer they should correct the Misinformation before the initial lead

The Director will adjust the score in your favour if needed

SOMETIMES IT'S A MISBID

If Opps explained their agreement correctly but one of them forgot their system then:

- You got the info you were entitled to i.e. their agreement
- The fact that the opps forgot their system is just your bad luck
- Do call the director don't try and decide for yourself

The score will stand without adjustment but if there's any doubt the Director will rule it as Misinformation rather than Misbid and adjust in your favour if needed.
