JUDY TEACHES AN INTRODUCTION TO DEFENSE

Many players overlook the importance of defending against a contract. Every deal you defend faces challenging decisions. Bridge is a partnership game. When on defense, it is your job to "tell" your partner about your hand. In this class, you will be introduced to sending signals to your partner in order to reach a goal of defeating the opponent's contract. You will learn to trust your partner's leads and signals as if they were your own.
